
MAGAZINE SEAL COMBINATION TOOL – CM 61

POLYESTER / POLYPROPYLENE STRAP
MAGAZINE SEAL
ONE TOOL OPERATION-
TENSIONS, SEALS & CUTS STRAP.

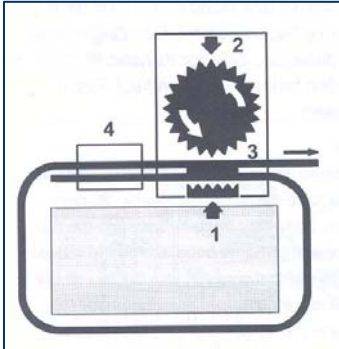

CM 61

The CM61 combination manual hand tool is a one tool operation that tensions, seals & cuts the strap. One lever tensions the strap, then the other lever applies the metal seal from an integrated seal dispenser that holds the seal magazine, then cuts the strap.

OPERATION

After strap is placed around package, squeeze handles together to open strapping area. Insert the bottom and top straps below and above the rear separator respectively & slide the straps into the tool until the stop is reached.

Tension strap with the tensioning lever and seal and cut by pressing the sealing lever as far as the stop with the left hand.

Squeeze the rocker lever towards the handle with the right hand and swing the tool away to the right of the strap

MAGAZINE SEALS

The CM61 seals are loaded in a convenient magazine format that is ideal for portability. The seals are designed to be used with both polypropylene & polyester strap.
