
FULLY AUTOMATIC STRAPPING MACHINE DBA200

PLASTIC STRAP
AUTOMATIC FEED, TENSION,
SEAL AND CUT-OFF

DBA 200

Automatic strapping using push button / foot pedal or pressure ball.

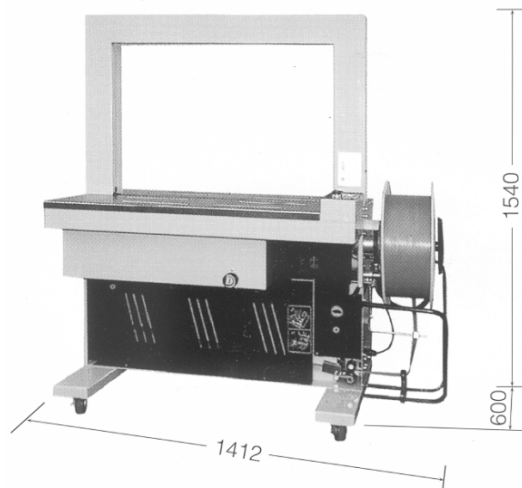

OPERATION

Package is positioned on table under arch and strapping cycle is triggered by the push of a button, use of a foot pedal or a pressure sensitive ball on the table top. The strap automatically tensions around the package, seals, cuts and pre-feeds around the arch, ready for the next cycle.

FEATURES

Low maintenance, durable oilless mechanism
External tension adjustment
Automatic strap feed
Short feed indicator
End of strap switch reduces possible malfunctions with strap feed.
Arch size can be made to suit individual needs.
