
SEMI – AUTOMATIC STRAPPING MACHINE SA-4

PLASTIC STRAP
AUTOMATIC PRE-FEED,
TENSIONING,
HEAT-SEAL AND CUT-OFF

SA-4

Efficient strapping of all package sizes with adjustable tension

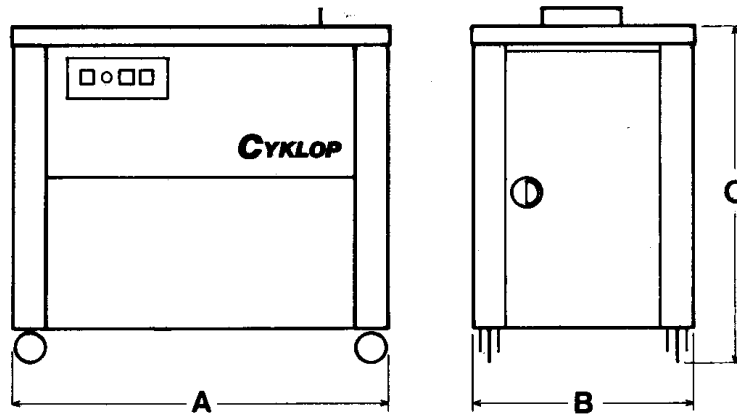

OPERATION

Package is positioned on table, the strap is applied manually around the item and fed into the gripper of the strapping head. The automatic cycle then tensions, seals and cuts the strapping head. The automatic cycle then tensions, seals and cuts the strap, then re-feeds a pre-selected length of strap for the next cycle.

FEATURES

Low maintenance: Plug in circuit board with 24V DC low voltage electrical control
Motor auto stop to save energy, restarts automatically for new cycle
External tension adjustment
